# A PERFECT SYSTEM DEVOTED TO PRODUCTIVITY AND PARKING SECURITY
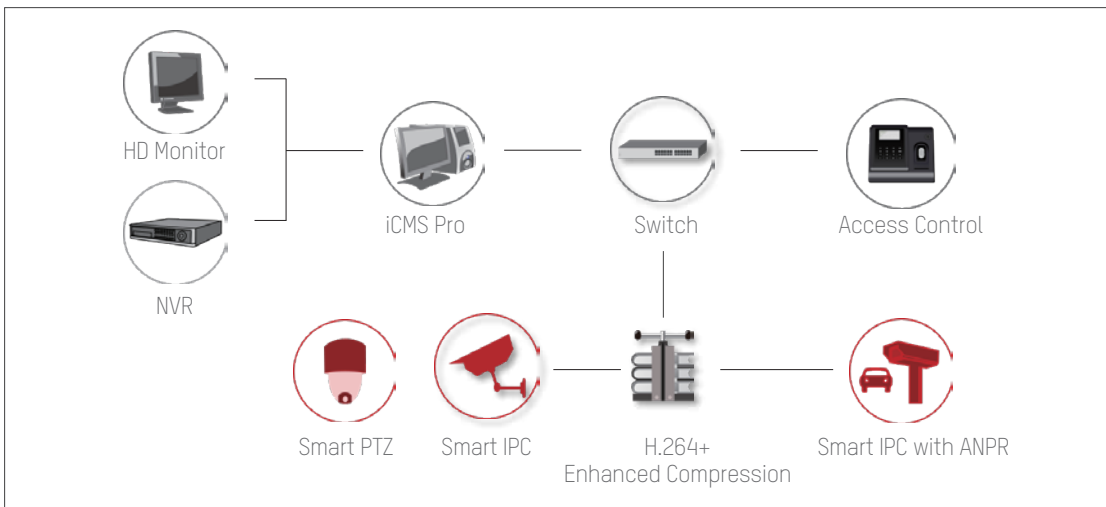

SMART INDUSTRIAL PARKS SOLUTION

INDUSTRIAL PARKS

The Smart Solution for Industrial Parks is total IP system for productivity and parking security. The solution provides around-the-clock protection with industry leading low light technology, automated vehicle access control with our ANPR module, and automatic event alerts with Smart detection. Including integrated IP products from IPC, NVRs, and Video Management Software, Smart solution can build a reliable, fully compatible, and flexible video platform for industrial parks.

How to have both a panoramic view and a highly detailed image

Combine a fisheye camera (which provides a 360°panoramic view) with a 2MP PTZ (which captures high definition detail), and integrates them seamlessly. They work together via click-and-zoom operation to bring you both a panoramic view and highly detailed image.

How to increase nighttime visibility for securing valuable goods

Indoor box camera with DarkFighter ultra low light technology and super large aperture HD lens delivers a top-notch noise-free image in a dimly lit environment.

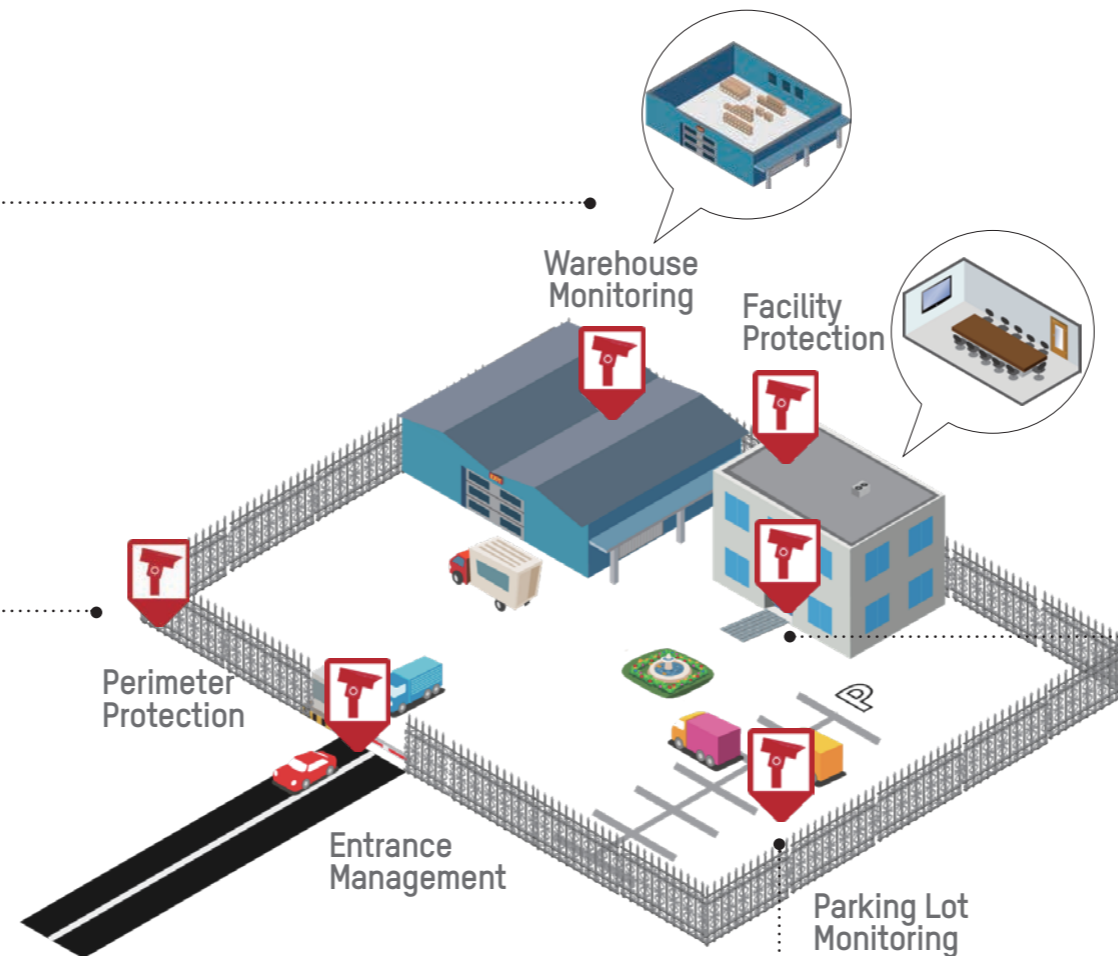

How to keep a perimeter secure and stay vigilant to unexpected events

Utilize HD products that provide up to 4K resolution, 200m IR range, and Smart detection technologies to best protect perimeter security.

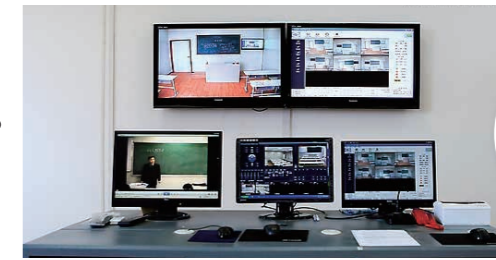

How to control vehicle access efficiently

Smart solution provides an outdoor IR bullet camera with ultra-low light capability, excellent strong light compensation, license plate recognition (LPR), and vehicle color identification to efficiently control the access of any vehicle.

How to use only one camera to cover a location without a blind spot

Iini fisheye network cameras featuring various resolutions (12MP, 6MP, 4MP, 3MP). Additionally, hardware or software de-warping with IR LEDs makes it possible to use only one camera to cover the area without any blind spots.

How to build a reliable, fully compatible and flexible video platform to manage a security system

Discover an easy-to-use, reliable, and feature-rich video management platform by using CMS Pro and embedded NVR for centralized alarm control and intelligent video analytics.

How to see clearly what happens inside the building as well as outside

The indoor IR dome camera with 140dB industry-leading wide dynamic range, triple exposure technology, and up to 30m IR range provides a crystal clear view.

How to cover a large area like parking lot and detect any intruder automatically

Outdoor IR PTZ camera can solve this problem with 23x optical zoom, Smart tracking, low light technology and up to 200m IR range.

How to send an alert automatically when a vehicle enters a no-parking area

Outdoor IR dome camera with excellent low light visibility and Smart intrusion detection can automatically send an alert when a vehicle enters a restricted area.

PERFECT VIEW
