Quick guide on connecting cameras and 3rd party POE Switch with PoE NVR

1. Plug cameras into back of NVR Built-in PoE Switch

2. On NVR, go to camera set up page. Click on the edit pencil and edit adding mode from Plug n Play to Manual (Make sure to enter camera password "Hikvision camera default password 12345")

3. Unplug cameras from NVR and plug cameras into external PoE switch. Connect one Ethernet cable from 3rd party switch to NVR switch. (Make sure to plug cable into port that was switch to Manual Mode)
